

Welcome

ALGET 2 - Quality Algae from Sea to Consumer

Webinar 3rd of December 2020

Programme ALGET 2 Webinar

Welcome and introduction to ALGET 2

Turi-Britt Kuepers, Norges Vel

Alaria esculenta from spore to dinner plate;

Focusing on growth, content, food safety and food quality. Findings in Alaria esculenta growing on two different locations on the same fjord.

Agnes Mols Mortensen, TARI - Faroe Seaweed and Fiskaaling.

What happens to compounds during processing and preservation?

Post-harvest/processing.

Susan Løvstad Holdt, National Food Institute, Technical University of Denmark.

What next and closure. Turi-Britt Kuepers, Norges Vel.

Few practical points

Please stay muted.

There will be time for questions and discussion after each presentation.

If you have questions, please write them in the chat box and we will read the questions after each presentation.

The webinar is being recorded. The recorded webinar and presentations will be distributed to the participants.

ALGET 2 –Algae Entrepreneurs

Project group 2019-2021

Project owner: Norges Vel

Project manager: Turi-Britt Kuepers

Steering committee

Thora Valsdóttir, Matís

Agnes Mols Mortensen, TARI-Faroe Seaweed

11 SMEs

Faroe island: 3

Iceland: 4

Norway: 4

Funding

NORA and National Norwegian county authorities

Møre og Romsdal
fylkeskommune

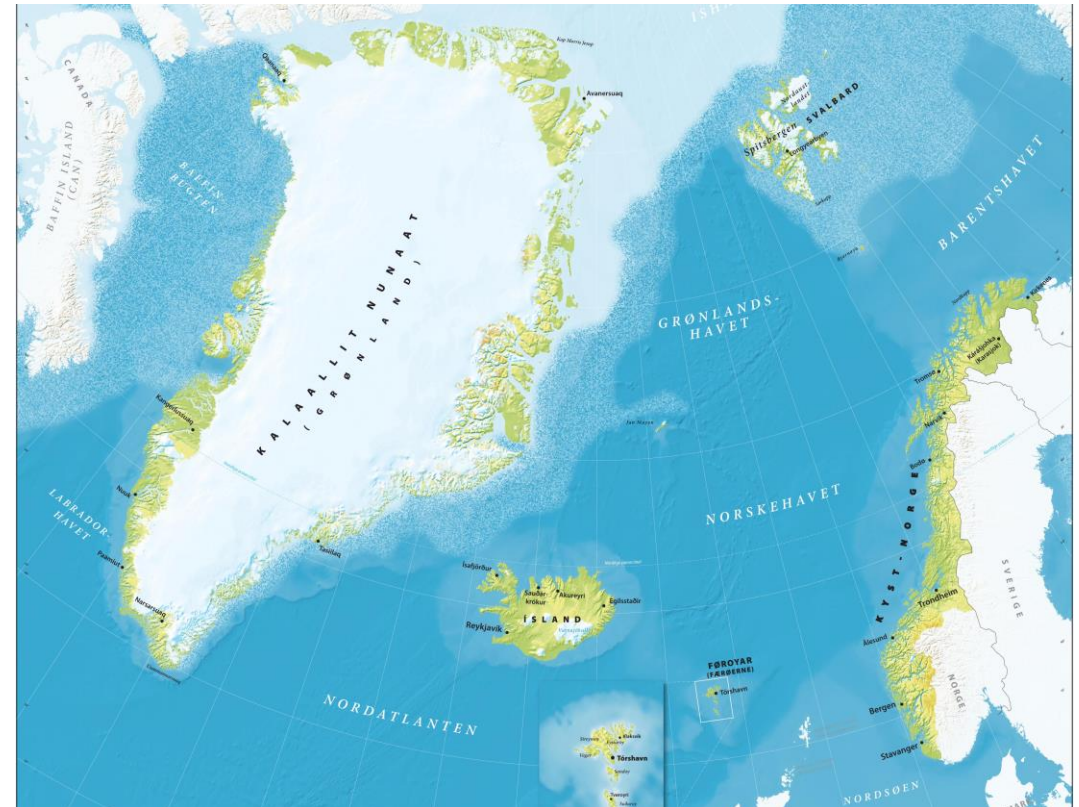

Vestland
fylkeskommune

ALGET 2 –Quality from Sea to Consumer

Objectives and expected results:

- Strengthened network
- Increased knowledge
- Common Guidelines / standards
- Establishment of Digital Knowledge Bank

ALGET 2

network and information
cultivated and wild harvested macroalgae

Our network collaborates and exchange experiences to create good industry standards for food safety and high-quality products from ocean to consumer in the North Atlantic region.

We incorporate expertise from governmental bodies, professionals and R&D in the entire value chain, from harvesting and cultivation, to processing and marketing.

What next in ALGET 2 webinar series:

14th of January 2021

Marthe Jordbrekke Blikra, Nofima

Morten Paulsen, Arcus

ALGET 2 work - Common Guidelines for the North Atlantic region

Turi-Britt kuepers, Norges Vel

Homework - North Atlantic Guidelines

Give input to point 1, 2, 5 and 6:

1. Structure of content
2. Species that will be included in the Guideline
3. Agree on sustainable harvesting techniques, methods and tools – how detailed?
4. “Macroalgae Fact sheets” for the included species – is it necessary?
5. Update the content with relevant and latest information
6. Process flow how to handle the seaweed from sea to consumer/transportation

Turi-Britt Kuepers

Working with us?

- Deadline for homework: **10th of December**
